How to Use HP DesignJet 480CA Large-Format Printer
Hue Luu and T.-C. He, 11/16/2005

1. Make your poster (canvas size: width = 35', and whatever height, or vice versa) in CorelDraw.

2. Turn on the large format printer

3. Before printing, make sure there are enough paper and/or inks.

4. Open the file in CorelDraw

5. From "File", select "Print Setup"

6. Select printer "HP DesignJet 488CA"

7. On "Properties", choose "Landscape"; Size: Canvas Size: 48 x 36''; Roll: 36'' rolls

8. On "Advanced" tab, select "run memory stored in computer"

9. Hit "Print" to print. It usually takes 20-30min. to print a regular size poster.

10. To cancel a printing job, you have to cancel it from both computer and printer.

11. Wait for a couple minutes

12. Restart the printer if you want to restart a printing job.
