There is a 40-70% probability that these bills could be introduced. If we can put the pressure on the vulnerable Democrat Reps, we could potentially flip their vote to prevent these bills from being passed. Our future depends on it. Just takes a few minutes to make a call. I have added the list of the vulnerable Democrat Representatives below. We cannot take the foot of the pedal! We need to keep the pressure on to prevent this bad legislation from getting through.
