Construction Services

Bethlehem, PA

paonep@zapecs.com

Luc Rudowski

Head of Innovation, thyssenkrupp Polysius AG

Beckum, Germany

luc.rudowski@thyssenkrupp.com

Larry Baxter

Professor, Brigham Young University

Provo, UT

larry_baxter@byu.edu

The CO₂ reduction roundtable discussion will compare and contrast the various levers and technologies that the cement industry is currently exploring and will continue to do so in addressing decarbonization. Topics to be discussed will include blended cements (hosted by John Kline), alternative fuels and calcined clays (hosted by Pete Paone), energy efficiency (hosted by Luc Rudowski), and carbon capture and storage (hosted by Larry Baxter).
