

General Description

Our commercial ATB – LED Anti-Theft Shatter Resistant Light is an ultra-efficient LED bulb that is ideal for commercial building, apartment buildings and residential homes.

With an anti-theft base design, the ATB fits on a standard electrical 1900 box or J-box Light and has a reinforced, shatter resistant globe designed for strength and safety on the job site. Built to replace incandescent E26 base fixtures and bulbs with one fixture, the ATB is up to 90 percent more efficient than traditional incandescent and has a 50,000-hour consistent lumen life expectancy. Offering the most advanced LED technology features in the industry that maximize energy savings and minimize maintenance costs, the ATB offers an easy, practical lighting solution.

Applications

Interior or exterior use, ideal for the construction industry, general utility locations, etc.
