# 2018 ANNUAL REPORT

**The Joseph Assignment**  
GLOBAL INITIATIVE

## 2018 ANNUAL REPORT

Since its founding in 2005, *The Joseph Assignment Global Initiative* continues to operate on the front lines of the movement to eradicate global poverty. Tremendous progress has been made. For the first time in history, global poverty rate of individuals with income less than \$1.90 per day has fallen below 10%. The African continent, particularly Sub-Saharan Africa, an area of JAGI focus, remains mired in entrenched poverty. According to the Brookings Institute, about 70% of the world's poor currently live in Africa, a number expected to rise to 80% if current trends continue.

Your support enables us to accomplish humanitarian efforts in Africa and other parts of the world. This includes areas of global poverty which eradicating is essential to the lives and communities we continue to impact. With 100% of your giving goes directly to missions, we are true partners in uplifting individuals and families out of poverty and into lives of hope and possibilities. Given 1 in 5 children globally live in extreme poverty, your giving has made a profound impact on future generations of world leaders, scientists, teachers, inventors and productive citizens.

As political and economic instability increases, and effects of climate change become more evident across the globe, the poorest regions are most vulnerable to devastating impact. Your increased contribution is needed to meet the challenges to come and maintain progress already achieved.

Thanks to you, JAGI has saved and

improved the lives of over a half million people. This is remarkable for an organization unencumbered by bloated administration because its' staff consists of all volunteers. We are committed to organizational efficiencies and strategic partnerships as a model for maximizing the impact of every donor dollar.

I was born in poverty, and experienced hunger and lack in my formative years. My personal journey through profound economic struggles made me sensitive to the global plight of children and families whose circumstances were even more dire than my own. I discovered my calling in struggle: to bear witness and devote my life to ending global economic injustices. Poverty is a human creation and requires human solutions. My greatest joy is teaming with you to be part of the solution.

JAGI was founded on personal conviction that *just because people are born into poverty does not mean they are destined to a life of poverty*. We agree with the following United Nations description of poverty's multivariant causes and effects:

*Poverty entails more than the lack of income and productive resources to ensure sustainable livelihoods. Its manifestations include hunger and malnutrition, limited access to education and other basic services, social discrimination and exclusion, as well as the lack of participation in decision-making.*

**Therefore, JAGI operates based**

We believe compassion must be followed by action that cultivates change and promotes holistic living. Through successful partnerships, The Joseph Assignment Global Initiative has been able to provide resources, education, expertise and opportunities to enhance the quality of life for people all over the world. Just because people are born into poverty does not mean they are destined to a life of poverty.

*I am your brother Joseph, it was God who sent me here ahead of you to preserve your lives.

### on the following organizational principals:

- Every person has a right to adequate shelter, economic opportunity and sustainability, quality healthcare and access to clean water.
- Global poverty is a human creation requiring collaborative human solutions. People living in poverty need not be destined to lives (and generations) of poverty.
- Collaborative initiatives are essential to leveraging the resources necessary to develop educational and economic opportunities for impoverished children and families.
- Collaboration and empowerment of local leaders, service providers, and target communities is necessary to promote self-determination and sustainability.
- Green technology and ecosystem preservation are essential elements for sustainable economic development of the world's poorest communities.
- Compassionate action to promote holistic living is the key to global peace and shared prosperity.
- JAGI maintains accountability to our donors/partners and commitment to operating with integrity and transparency.

We at JAGI are convinced and

**The Joseph Assignment**  
 GLOBAL INITIATIVE

understand, when a child dies from malnutrition, contaminated drinking water, an insect borne pathogen, we all bear the loss. When a child's potential dies from lack of clothing, shelter, educational resource opportunities, economic injustice, all of humanity suffers an opportunity cost. Within those 160 million children suffering in extreme poverty are scientific innovators to save the planet, doctors to save lives, teachers to nurture dreams, government leaders to promote peace, inventors to catalyze progress, and mothers and fathers to raise future generations.

I am grateful beyond measure that you have shared the JAGI vision and partnered in mission on behalf of these children and their families. Your labor and generosity have not been in vain, as the half-million lives uplifted over our 13-year journey can attest.

We hope you agree with us on the mission to rescue millions of lives from the grip of extreme poverty. The allocation of 100% of all donations to the mission field means there is direct correlation between your giving and lives uplifted. It's time to go to the next level.

As founder, CEO and lead volunteer, partnering with you is a great honor. You are appreciated by me, our volunteer staff, and particularly our benefactors. Working together, lets keep our eyes on the prize of a poverty free world, with confidence and conviction that the best is yet to come!

*Let us strive together to increase the roster of JAGI individual donors, corporate partners, corporate matching gifts, United Way contributions, and other donor entities. We need to cultivate resources to continue the work: school construction, maintenance, staffing and supplies; clean water well construction; green energy infrastructure development; farming and agriculture micro-business development; mosquito net distribution; shelter, clothing, food, medical service provision; and other mission projects.*

## EDUCATION

134 million children between the ages of 7 and 18 have never been to school. Girls are more likely to go without schooling than boys. Children are more likely to be forced into child labor if they are not attending school and girls forced into sex trafficking.

## HEALTHCARE

Measles, malaria, and diarrhea are three of the biggest killers of children. More than 30 million children are not immunized against treatable or preventable diseases. 1 in 4 children who die before age 5 die of water-related diseases. Diarrheal diseases kill five times as many children in the developing world as HIV/AIDS.

## CLEAN WATER

Nearly 1.1 billion people do not have safe water to drink. A child dies every 15 seconds from unclean water. 2.3 million children die before age 5 due to water-related diseases. Children and women often walk miles every day to collect dirty water to drink. 2.6 billion people lack adequate sanitation services.

## ORPHANS AND VULNERABLE CHILDREN

A staggering 53,100,000 orphaned children live in Sub-Saharan Africa. In India, approximately 12,400,000

orphans and almost 40,000,000 children are in need of help. An estimated 6,000 children are orphaned by AIDS every day. Children account for half of all civilian war casualties in Africa.

## SHELTER

More than 1 billion people are living in unsafe and impoverished living conditions. In most housing structures, 5 to 12 people share one 10' x 10' room. Structural quality is very poor and dangerous in most thatch and clay homes. Poor cramped housing promotes spread of infectious diseases.

## FOOD

Hunger kills more people every year than AIDS, Malaria, and TB. More than 900 million people go to bed hungry every day; 300 million are children, 5 million people die every year from hunger. Every day, almost 16,000 children die from hunger-related causes. Malnourished children suffer up to 16 days of illness every year.

## GREEN TECHNOLOGIES

In (Asia and Africa), especially in rural areas, 2.5 billion people rely on biomass, such as fuel, wood, charcoal, agricultural waste and animal dung, to meet their energy needs. These energy sources predispose families to hazards associated with smoke, fumes, CO, HC and other particulates.

## CORE AREAS OF SERVICE

Just because people are **born into poverty** does not mean they are destined to a **life of poverty**.

*"I believed that my partnership with the Joseph Assignment was by Divine connection. I saw the excellent work that the Joseph Assignment Global Initiative was doing to benefit the lives of hundreds of children living in extreme poverty in Cape Town South Africa. Now we're reaching over a thousand every week with a nutritious meal. Thank you to every donor for caring for those suffering around the world."*  
 -Pastor, John Philmon

Every human being deserves to live in a safe and clean home, become economically self-sufficient, and have access to quality healthcare and clean water. Just because people are born into poverty does not mean they are destined to a life of poverty. Compassion must be followed by action that cultivates change and promotes holistic living. Through collaborative initiatives, we can leverage the resources necessary to stimulate educational and economical opportunities for the poor. We maintain accountability to our supporters who are committed to employing green technology and ecosystem preservation methods throughout our community development blueprint.

Our mission is to impact the lives of the world's poorest children and their families by addressing educational, economic, and physical needs through collaborative initiatives which leverage resources necessary to stimulate systemic development.

The Joseph Assignment Global Initiative is a global humanitarian organization that transforms the lives of the world's poorest children and their families through sustainable initiatives.

*For I was hungry and you gave me something to eat, I was thirsty and you gave me something to drink. I was a stranger and you invited me in, I needed clothes and you clothed me, I was sick and you looked after me, I was in prison and you came to visit me. - Matthew 25:35-36 (NIV)*

When the day was now far spent, His disciples came to Him and said, "This is a deserted place, and already the hour is late. Send them away, that they may go into the surrounding country and villages and buy themselves bread; for they have nothing to eat."

But He answered and said to them, "You give them something to eat."
