**October 2, 2024**

**Dear Patriot,**

Turmoil swirls all around....strikes, bombings, debates, hurricanes. We are witnessing the result of a feckless, weak United States president. It causes instability all over the world.

Please hold steady and continue to pray. We are living on a tipping point of history. It is uncomfortable but we trust in God's plan.

-----

If nothing else, this past week shows us that life can come at you fast and hard. This is why we urge you to get your vote into the system in-person, avoid mailing ballots, as early as your state allows. Ideally, we would all wait until Election Day. But, there are too many factors that may make waiting risky. We cannot rely on one 12 hour day to be devoid of massive Democrat cheating.

Remember these seldom discussed facts. There are many more similar stories.

- In 2022, Arizona machines had printing errors on Election Day.
- In 2022, Luzerne County, PA, ran out of paper on Election Day.
- In 2022, it snowed in Nevada on Election Day.

We know you hear a lot of suggestions for when and how to vote. We want you to do whatever makes you comfortable but to think about the process in a common sense way.

---

We will discuss the fall-out from the Vice Presidential Debate with you on Friday.

Meanwhile, spend some time these stories.

- Glaring displays of leadership and the lack thereof.
- The many reasons hurricane help is a strategic nightmare.
- When petty public policy decisions turn deadly.
- We think the dockworkers need the BEST negotiator of all time!
- Costco can fix the Voter ID problem.

**1-** What is happening in North Carolina is still unfolding. It has been estimated that around 1000 people are currently unaccounted for.

But, the Biden Regime appears not care much for their fellow Americans. They are busy with fancy fundraisers and lounging on a beach.

When Americans are in peril both here and abroad, strong leadership in the White House is vital. We are seeing the results of a void of leadership everyday since the catastrophe of Hurricane Helene.

While Kamala is far out-raising President Trump, he established a GoFundMe, not for himself but so Americans could contribute to help their fellow Americans in need. Trump's fund for Hurricane Helene victims raised over \$2.1 MILLION DOLLARS in less than 24 hours.

#### **Trump is already on site helping Hurricane victims, and slamming Harris/Biden regime for failing flood-ravaged Americans**

**QUOTE:** What's happening in GA, TN, FL, and NC is biblical. The flooding has killed at least 90 people, destroyed countless homes and businesses, and ravaged rural America—some places to the point of no return.

The devastation is unimaginable, yet somehow, the Harris/Biden regime doesn't seem the least bit concerned with helping the Americans who support President Trump.

Hurricane Helene just hit, and right on cue, President Trump is already on the ground, ready to help.

Meanwhile, he's calling out the Harris/Biden regime for abandoning needy Americans in their time of crisis.

Trump wasted no time meeting with the right people, digging into the details, and coming up with a plan. This is what real leadership looks like, folks.

Entire US towns have been obliterated. This should matter to the so-called "President" and "Vice President," but clearly, it doesn't.

What President Trump is doing right now is showing what real leadership looks like. He's not just talking the talk—he's showing the world what America First truly means. It's about putting your own citizens first, something most sane countries do without a second thought. Once again, under incredible pressure, President Trump is proving in real time why he's the only man for the job.
