Propose Ban Of 3D Guns

The City of Chicago would ban the use of sophisticated computer-driven machines that can be used to create stealth-like firearms under an ordinance introduced by 14th Ward Aldermen Edward M. Burke and 11th Ward Alderman James A. Balcer.

The measure would make it illegal for the public to use a device called a three-dimensional printer to manufacture firearms. Possession of 3-D printed guns, which can be made at home out of melted plastic, would also be banned because the weapons have the potential of eluding airport security checkpoints. The only metal parts are the bullets and a firing pin.

The Department of Homeland Security recently issued a bulletin warning that "significant advances in three dimensional printing capabilities...may present safety risks."

Approximately 100,000 plans for a 3D gun called "The Liberator" have already been downloaded nationwide and the federal officials have cautioned that "magnetometers may fail to detect the Liberator, depending on device sensitivity."

Violators would face fines ranging from \$1,000 to \$5,000 and prison terms of 90 to 120 days.

White urged people to report abuse of parking spaces for people with disabilities by calling (217) 785-0309. Callers should be prepared to report placard and license plate numbers as well as locations of vehicles.

Selective Enrollment Policy At Schools

By Dr. Roy Pletsch

How many of your former neighbors have moved to other cities to utilize the better schools? Well, surprise, surprise. According to the State of Illinois and reported in the Chicago Sun-Times, if you judge schools by test scores, eight of the top ten elementary schools in the state are Chicago Public Schools. Seven of the top eight middle schools and four of the top five high schools are Chicago Public Schools. On these three top lists, only Rockford and Springfield have two schools and none are from the ones that are always thrown at us: Plainfield, Naperville, Tinley Park and Orland Park.

The hard part is getting into these schools, but yes, even if your student officially has a disability, they are eligible for any of the ten selective enrollment high schools, six Military Academy Schools, and, if you wish, there is the highly regarded Inter-national Baccalaureate program in many schools including Kelly, Juarez, Curie and Back of the Yards.

The final date for application is Dec. 13th and they are available in any Chicago Public elementary school. The process for students is the same for graduates of parochial schools.

But as I have always told my students, don't wait until the last minute to prepare, because it is the seventh grade final grade on report card in reading, math, science and social studies, along with the seventh grade standardized test. Students then are eligible to take the entrance exam.

Advisory Council At Hoyne Park

The Hoyne Park Advisory Council will conduct a general meeting in the fieldhouse, 3417 S. Hamilton on Thursday, Dec. 12th at 6:30 p.m. Residents are urged to attend and make suggestions for improvements.

There is a model for points that a parents will become aware of by reading the packet. I always told my students that there are many fine programs in neighborhood high schools but go there because it is your choice, not because you have to go there. Three of the Military Academies - The Marine Math and Science Academy, Air Force Academy and Chicago Military Academy at Bronzeville and three of the top five high schools - Jones, Whitney Young and Walter Payton are in in close proximity. If your student waits until seventh grade to take school seriously, they probably will not attend one of these great schools. Remember there are many fine Catholic high schools that are available. They also have an entrance exam, which I will write about in an upcoming issue.
