

Cupples J&J Company Robotic and Conventional Welding

Robotic Welding Capabilities

6 ea - Panasonic Robotic welding cells with up to 8 axis capability - 350 AMP CV MIG and 500 AMP Pulse MIG

Conventional Welding Capabilities

1 ea - G.E. Schmidt Press Type Spot Welder with 120 KVA power

1 ea - Rocker Arm - 30 KVA Spot Welders

8 ea - Miller Production Mig Welding Systems - 3 ea pulse and 5 ea CV up to 350 AMP

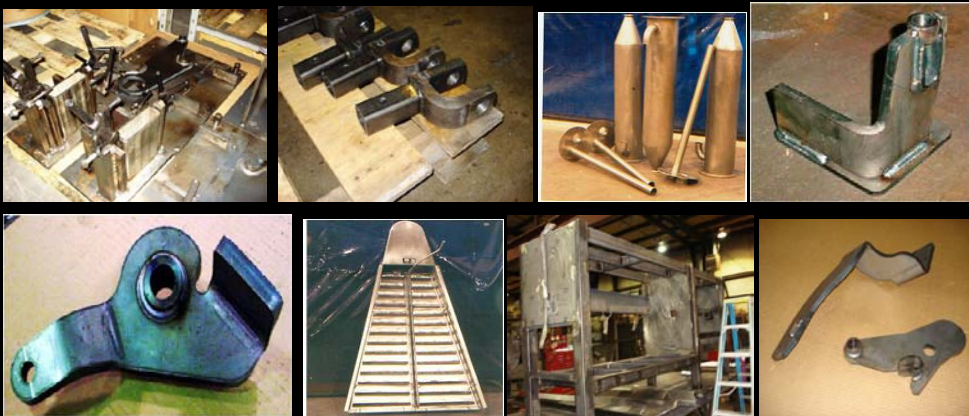

16 ea - TIG Welding Systems up to 500 AMP

2 ea - Reiner Rotary Welding Stations for Automatic Rotary Mig Welding

8 ea - Stick Welding Systems

Examples of Robotic and Manually Welded Parts;

The Welding Division is also supported by Laser Cutting, CNC Punching, CNC Forming, Machine shop, Screw Machine and General Sheet Metal Fabrication Divisions. Cupples' J&J could fabricate single parts up to full machines.
