TILO
TAPWARE

OUR STORY

Tilo Tapware has always been dedicated to the ongoing research and development of its high-end products in order to bring to market quality kitchen and bathroom fittings, thus, exceeding modern-day consumer demands, whilst maintaining compliance with industry standards.

And it is with this in mind that we are pleased to announce our newest and most comprehensive range of tapware and accessories in our 23-year history in the industry.

What started out as a mere vision turned into reality in the space of a mere 6 months of intense hard work, planning and development.

WELCOME TO NOVETTI

A new world of creativity, design and technology.

From the bathrooms, into the kitchen area, Novetti gives you that sense of worth that you've worked hard for, plus the added assurance you've come to expect from a quality Australian tapware manufacturer. With Tilo Tapware's new Novetti range comes an added assurance of, 100% Lead Free tapware and bathroom accessories, so you can have peace of mind knowing it's safe for you and your family, no matter which space you occupy most.

ADVANTAGES

The Novetti range of tapware and accessories allows the installer to fit all necessary pipework and in-wall mixers at the time of the rough-in stage, weeks prior to the installation of all wall sheeting and tiled surfaces, allowing you, the consumer, then the opportunity to choose the appropriate colours and/or finishes to best match your walls, floors, tiled surfaces and bathroom and kitchen décor. You also have the option, even further into the future, to change the colour or finish when updating your bathroom or kitchen décor. This gives you the versatility and peace of mind for years to come that your future is well covered by a truly remarkable and well thought out product.

Furthermore, all Novetti products are WaterMarked and WELS approved where applicable, so you can have the assurance it is a quality certified product.

Plus, all Novetti mixers are backed with a 15-year manufacturer's warranty against faults and manufacturing defects and 7 years on mixer finishes and on all bathroom accessories.

We hope you will enjoy browsing our comprehensive catalogue in search of the right design and colours which we bring you.
