SEAVEE Z PERFORMANCE MODEL LINE

SEA VEE
Boats
LEAD THE WAY

REVOLUTIONIZING PERFORMANCE FROM THE BOTTOM UP

The award-winning SeaVee Z redefines the Offshore Center Console Performance category from the bottom up. Superior handling, speed and efficiency all start with the revolutionary new high-tech, cross ventilated, twin stepped, cored hull. Multiple lifting bodies, each with a unique angle of attack, are designed to produce a fixed trim angle at a variety of speeds ensuring maximum efficiency, ride comfort and a clear view of the horizon at all times.

Safety at speed is paramount. To ensure safe handling during high speed maneuvers, the SeaVee Z features patented Speed-rail™ Technology. High speed turns produce opposing concentrated pressure on the speed-rails™, safely keeping the boat tracking in the desired direction without the risk of losing control. The precise handling performance of the SeaVee Z significantly enhances the safety of the operator and passengers, while producing an exhilarating ride experience.

The SeaVee Z Model line up is designed exclusively for outboard power. It all starts with the twin engine 322Z, includes the bold 340Z, the all new 370Z and the flagship 390Z with up to four motors and 1,800 hp. Every model is available either as an open fisherman or as the Luxury Edition (LE) with additional seating options and creature comforts.

340 Z LE

The SeaVee 340 Z Luxury Edition (LE) offers the same level of performance as her sister ship, along with additional forward seating options for families seeking a comfort upgrade. Sun worshipers will appreciate the 340 Z LE's two lounge style seats molded into the forward cockpit complete with electronically adjustable backrests and additional storage along both sides.

SPECIFICATIONS*

Length:	34' 9"
Beam:	10'
Weight w/o engines:	8,150lbs.
Hull Draft:	20"
