

## **School Backpack Program**

The New Day Outreach Ministries school backpack giveaway program provides students, particularly those from low-income families, with free backpacks and essential school supplies to help them succeed in their education. The program begins at the beginning of the school year to ensure students are well-prepared for the academic challenges ahead. The backpacks are filled with notebooks, pens, pencils, folders, and sometimes additional supplies like calculators or uniforms. The program aims to reduce financial burdens on families, promote equal access to education, and foster community support.
