

## **Second Chance Job Creation Program**

Members of our society with criminal justice involvement form one of the most disadvantaged populations in our nation. They experience many challenges that prevent them from being successful. New Day Outreach Ministries recognizes the importance of second chances and has developed a program that aims to provide formerly incarcerated individuals with opportunities to re-enter the workforce and reintegrate into society, obtain the competitive advantage to successfully compete in the American economy, pursue the life they choose, and impact positive change in their communities.
