Club Calendar:

- 6/13/25 Texas Lions Camp - serving food
- 6/17/25 Installation banquet
- 6/27/25 Scott & White Dream Catcher luncheon

THIS WEEK'S PROGRAM

Our very own past president Jeff Thigpen gave told us the buzz about bees this week. It was a bee-utiful presentation which gave some insight into bee-keeping, honey, and wax utilization, and some basic facts about bee life in general. I especially enjoyed the stories of some of the hive removals that he recounted for us. In case you weren't paying attention, almost all of a bee hive is made up of females. The queen and workers are all female. The male drones are few and far between, lack stingers, and only serve one real purpose: reproduction. It is fascinating how bees are able to regulate the temperature and humidity within the hive. I think we should have another presentation with even more details about bee biology.

Welcome to the club Ernesto Lopez!

Proverbs 3:5-6

Trust in the Lord with all your heart and lean not on your own understanding; in all your ways submit to him, and he will make your paths straight.
