

DISCLOSURE OF INFORMATION ON RADON HAZARDS TO TENANTS

Radon Warning Statement

Each tenant in this residence or dwelling unit is notified that the property may present exposure to levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class-A human carcinogen, is the leading cause of death in private homes and the leading cause of lung cancer in nonsmokers. The lessor of any residence is required to provide each tenant with any information on radon test results of the dwelling unit that present a radon hazard to the tenant.

The Illinois Emergency Management Agency (IEMA) strongly recommends that ALL rental properties have a radon test performed and radon hazards mitigated if elevated levels are found in a dwelling unit or a routinely occupied area of a multiple family residence. Elevated radon concentrations can easily be reduced by a radon contractor.

Dwelling Unit Address: _____

Lessor's Disclosure (initial each of the following which applies)

--	--

Lessor has no knowledge of elevated radon concentrations (or records or reports pertaining to elevated radon concentrations) in the dwelling unit.

--	--

Radon concentrations (at or above the IEMA recommended Radon Action Level 4.0 pCi/L) are known to be present within the dwelling unit.

--	--

Lessor has provided the tenant with copies of all available records and reports, if any, pertaining to radon concentrations within the dwelling unit.

Tenant's Acknowledgment (initial each of the following which applies)

--	--

Tenant has received copies of all information listed above.

--	--

Tenant has received the pamphlet "Radon Guide for Tenants".

Certification of Accuracy

The following parties have reviewed the information above and each party certifies, to the best of his or her knowledge, that the information he or she provided is true and accurate.
