MAY IS NATIONAL MENTAL HEALTH AWARENESS MONTH!

Each year millions of Americans face the reality of living with a mental illness. During May, the National Alliance on Mental Illness joins the national movement to raise awareness about mental health. Each year NAMI fights stigma, provides support, educates the public, and advocates for policies that support people with mental illness and their families.

The Climate Reality Project

Today, Ms. Ariel Hoover, gave a presentation to our club on the Climate Reality Project. The mission of the project is "to catalyze a global solution to the climate crisis by making urgent action a necessity across every level of society" (climaterealityproject.org). Ms. Hoover told us that we are facing a climate crisis, which is the result of carbon pollution from fossil fuels which is warming our planet and throwing natural systems out of balance. The results of this include hotter temperatures, stronger storms, rising seas, and many other things happening that may threaten the health of our families now and for future generations. She went on to give us specific strategies we can employ in our own lives to help make this change, as well as what needs to be done on a societal level. Use the link below to watch her entire presentation. Ms. Hoover presented a wealth of information! Thank you for such an informative presentation!

Did You Know May is also National Salsa Month???

You can observe by making several different salsas in May. Why not start with something traditional like this recipe at the link below! Sounds delish! Enjoy!
