

## **Financial Assistance Policy**

New Day Outreach Ministries is committed to helping those we can help in financial need. Ministries often provide financial assistance to people in need. The assistance can be direct aid, subsidies, loans, or grants. This program will assist low-income families, elderly citizens, people with disabilities, students, and those affected by disasters or economic hardship. Our help will be direct cash transfers to support individuals and families facing economic challenges for medical expenses, insurance coverage, financial help for medical treatment, and response to natural disasters, or urgent economic crises.
