

Veterans Assistance Program

We have a great country, largely due to those who have served in the military. It's important to remember what veterans have done. Many have laid costly sacrifices upon the altar of freedom. We want to give back to our veterans who often find themselves underemployed, unable to access physical and mental health treatment, or struggling to maintain adequate housing. New Day Outreach Ministries will offer financial help to as many of our former and current service members as possible. New Day Outreach Ministries has developed a job creation program to assist as many veterans as possible in becoming financially independent, not merely because of their shared demographic traits, but also due to their leadership qualities and competitive spirits. College scholarships will be awarded to children, dependents or spouses of fallen, or disabled veterans as a profound act of gratitude, support, and recognition of the veteran and their family's sacrifices. These scholarships will provide essential financial assistance for education, allowing these children to pursue their academic goals without the added burden of economic stress. We believe these scholarships can empower these children to achieve their dreams, ensuring their parent's legacy lives on through their accomplishments and community contributions. We hope this gesture will remind the children that they are not alone in their journey. Many of the freedoms we enjoy today are made possible by the sacrifices of our heroes. We thank all Veterans for their service, dedication, bravery, and sacrifice.
