KOMODO

FIREREADY911™

BE WILDFIRE READY

Komodo FireReady911 (FR911) ensures property owners have a just-in-time tool to help defend their property when a fire threatens. FR911 is a professional grade wildfire response system designed to help prevent fire spread and provide peace-of-mind to property owners.

As a wildfire threatens and evacuation orders escalate, property owners can depend on FR911 to give their property a fighting chance by neutralizing combustible materials from igniting.

Komodo's broad spectrum fire response solution is 20X more effective than water, non-corrosive, and non-damaging to the property's equipment and structures.

TRIPLE-SCOPE

The Preeminent Federally Approved, Plant-Based Firefighting Technology:

1. Long-term Fire Retardant starves & stops wildfires
2. Powerful Fire Suppressant that quickly extinguishes fires and stops re-ignitions
3. Fire Protective Shield coats valuable assets to give them a fighting chance

PROTECT WHAT'S IMPORTANT
