

## **No Kid Hungry Program**

No Kid Hungry is a national program aimed at ending child hunger and ensuring that children have access to nutritious food. The program focuses on providing resources and support to schools, community organizations, and local governments to address hunger through school meals, summer meal programs, breakfast and after-school programs, and emergency food assistance programs. The goal is to create lasting solutions that ensure children have reliable access to healthy meals. New Day Outreach Ministries will partner with No Kid Hungry to feed children living with hunger. Some children miss meals, and others face daily uncertainty about food as their parent's trade between buying groceries or paying bills. The No Kid Hungry Program helps get the resources to feed them.
