

Internet and Tele-Consults

If you are already a client, this is ideal option for you. If you attend an **“in person consultation”** when needed, this will be a convenient means to talk to your holistic counselor.

There are time if it is not possible to attend a consultation in person, this can be an option for those who live far distances from our service area. However, services may be limited to **“life coaching”** according to holistic

principles.

Transactions will be via **square payment platform** before the consultation. We are discussing a program where our clients can choose and prepay their appointments.
